City's Valuation Up  
Half Million in Year

Healthy Growth, Baker Says

Around  
the Square

To this particular fugitive from big city life there's a never-dimming fascination in the knowledge that just a scant mile or so from this paved, populated, sometimes traffic-jammed Square of ours on the mountain side periphery of the town live and prowl animals and wild life straight from the pages of our Nature Atlas.

Just this sort of thing has been making life exciting in the neighborhood of the Spencer P. Edwardses who have a sizeable piece of property, some of it not cleared, at 576 Elm St.

Mrs. Edwards, many a day, has interested herself in observing the activities of the small, wild creatures and occasionally finds herself administering to humming birds and baby bats. But now there seems to be a cougar headquarters in a nearby oak tree and it's a little close for comfort. The cougar (mountain lion, puma, panther — Master of the Mountains) hasn't actually been SEEN, but it's been heard — and shot at!

There has been a series of "incidents" . . . strange paw prints, chilling cries, hissing sounds, wildly excited dogs and reports from neighbors.

The other night Mrs. Edwards was relaxing on the terrace when she heard several indistinguishable cries. Her Cocker Spaniels, who had been sleeping on the floor, bounded to her lap and lay there, trembling and silent. At the same time a pack of coyotes off in the distance set up an eerie howl and so did all the dogs in the neighborhood.

The police were summoned and Officer J. McDonough arrived and as he was getting out of the police car he heard "something large" move above him and a tumbling of loose rock. He threw a light on the spot and fired a shot.

No body was found. Mrs. Edwards guesses that the animal "took off for Lancaster" in a hurry.

But even with no "corpus delicti," the howling dogs, the sound of the shot, the winking flashlights as everyone searched the grounds added somewhat to the entertainment of bridge-playing guests that night at the nearby home of Col. and Mrs. Charles R. Gildart.

## Sophisticated Note.

Friends of ours returned from a vacation recently. They had a peachy time. One night they tucked their boys in bed, dressed themselves to the teeth and, in a honeymoon mood, went to Cal-Neva for a Big Time together.

First they encountered her ex-husband and his wife. Then along came one of the lawyers who figured in that divorce but it was even cozier when the Sierra Madre couple encountered HIS ex-wife and her husband.

How did this effect their fun? "Oh," replied the gal, grinding her teeth, "I had lunch with 'the girls' the next day and Ed played golf with 'the boys'. And now," she added feelingly, "I've come home to RELAX!"

The slick efficiency of modern office desks with composition tops and free-wheeling drawers is as nothing, really, when compared to the old, oak, roll-top one at which Woodson Jones presides in his office at Sierra Madre Realty Company. One bank of small drawers at eye-level, within effortless reach of his right hand contains memos, maps, matches, etc. A companion battery to the left conceals other sundries but best of all is the one kept filled with lollipops (name your flavor and bubble gum) for the youngsters in town who instinctively know a friend when they meet one.

Final figures from the Los Angeles county auditor-controller, released this week, show Sierra Madre's total assessed valuation to be \$8,298,470, an increase of \$512,630 over a year ago and an increase of a million dollars over two years ago.

The largest part of the increase over the past year reflects the value of improvements. Building for the year 1952-53 amounted to \$314,330.

City Administrator R. Merritt Baker says he sees in this an "indication of good, steady healthy growth." A large proportion of the improvements are of the high-class type, he pointed out.

The City's budget estimates on income will be revised to take into account the new valuation figure from the county and the entire operating budget for the year will be presented for the City Council's approval Aug. 25.

Eagle Scout  
Dinner Set  
For Oct. 29thDistrict Scouters  
Hear Reports

Men of the Mt. Wilson District of Boy Scouts met Monday night in the City park house and planned participation in the San Gabriel Valley conference Eagle Scout recognition dinner, scheduled for Oct. 29, the place to be announced later.

## Woodward Chairman

Marcus Woodward of Sierra Madre was appointed chairman of the dinner, first in nine years, by the San Gabriel Valley conference. Eagle Scouts will be invited to attend the dinner with their vocational sponsors and the event is planned to encourage the interest of business and professional men in giving the Scouts vocational guidance, it is pointed out.

There are 215 Eagle Scouts in the Mt. Wilson district.

A Boy Scout Court of Honor is scheduled for Oct. 5 in the Sierra Madre City school auditorium at which time merit badges and advancements in ratings will be awarded. The deadline for Eagle Scout applications to be considered is Sept. 1, on which date the Eagle Scout Board of Review will meet at Woodward's home, 99 Suffolk.

## Report Summer Events

Arthur Rittterath, Mt. Wilson District vice-chairman, presided at this week's district meeting. At that meeting institutional representatives reported on summer activities of their troops.

The next meeting of the district Scouters will be held Sept. 21 in the park house.

Essay Contest  
Feature of  
NNW Week

Essay contests for the nation's high school and college students, in connection with National Newspaper Week (Oct. 1-8) have been announced by the NNW committee.

"Many people have asked that students be given a special opportunity this year to take part in National Newspaper Week," according to Vern Sanford, NNW chairman and general manager of the Texas Press association. "The contests are a result of those requests."

## Two Contests

Both high school and college student groups will have an opportunity to enter two events. One is a contest for the best essay; the other for the best illustration. Both are based on the NNW theme, "Freedom of Information." Awards will be made to the boy and to the girl who submit the best entries in each event.

Essays must be no longer than 750 words. Illustrations are to be done only in black and white, no smaller than 6x9 inches and no larger than 9 x 12.

Entries are to be submitted

In Schweppe Aviary

Mrs. Frederic Schweppe, 182 N. Lima, who raises parakeets as a hobby, found one of the small birds missing Monday morning when she made a check of her outdoor aviary.

Closer inspection disclosed the answer.

An obviously well-fed, 35-inch rattlesnake had invaded the aviary and was coiled on one of the nesting boxes.

Mrs. Schweppe's neighbor, Police Officer Maurice E. Farr inflicted sudden death on the rattler.

## Gentle Reminder . . .

## Bike Riders Subject to Rules, Too

Bicycle riders have been coming in for some criticism in town. First there were complaints about "speeding" bicyclists in City Park and the City hauled out an ordinance showing it to be a violation to ride a bicycle anywhere in the park . . . and pointed sternly to a possible \$200 fine.

Complaints have been heard about bicycles being ridden on sidewalks. And one person stated on a post card that he or she didn't want to see a municipal swimming pool develop because "there already were enough bicycles cluttering the streets and sidewalks!"

Bicycle riders now are the drivers of the future and it is felt they might as well learn now to observe regulations.

Here are some "DON'TS" listed by Chief of Police Gordon G. McMillan:

**DON'T:**  
Ride double.  
Ride through traffic signal, against red lights.

Ride through boulevard stops, always stop.  
Ride or park your bicycle on the sidewalk.

Ride out of alleyways until you have slowed up and looked both ways.

Try to beat an automobile across intersections.

Ride your bicycle at night UNLESS you have a headlight that can be seen for 300 feet and a tail-light reflector that can be seen 200 feet.

Neglect to see that the number on your identification card corresponds with your license plate number.

## PARK PROGRAM ENDS

Sierra Madre's summer recreational program in City park for children of the community will draw to a close on Wednesday, Aug. 26, it has been announced by Philip Mitchell, Recreation director.

## Something New Added

## To Sell Refreshments at Park Concert

There will be some innovations tomorrow night at the fortnightly outdoor presentation of the Sierra Madre Concert band in City park.

A canvas shield set up in back of the band platform will improve the acoustics somewhat, it is hoped. Also, for the first time during this initial concert series, refreshments will be sold during the intermission under the sponsorship of the Sierra Madre Lions club.

**Guest Director**

Also, there will be a guest conductor for one number. Ben Course, Monrovia music teacher,

will direct the band in the playing of one of his own compositions featuring a flute solo by Nina Bliehn.

Proceeds of the sale will augment a fund used to defray incidental expenses of the band. Permission for selling refreshments in the park on those occasions was granted recently by the City Council after presentation of the request by Mrs. Stanley Coutant of the Band committee.

**"Gremlins" by Request**

A repeat number on the program tomorrow night, in response to popular request, will

be "At the Gremlins' Ball," which was a hit when played earlier in the season.

The children's novelty feature, announced by Marie Oliva, director, will be "Mosquitoes Parade."

Other numbers will include "Clarinet Polka," arranged by Bennett; "Thunder and Blazes" by Fucik, which will be recognized as "Entrance of the Gladiators" and "Raymond Over-ture" by Thomas.

The Community Sing will feature a medley of "Smiles," "Don't Fence Me In" and "California, Here I Come."

Straw Vote Favors  
Pool Bond ElectionSupporters Mobilize for  
Presentation to Council

An open meeting of the Swimming Pool association a week ago resulted in the decision to present to the City Council Tuesday night, Aug. 25, a request for an \$80,000 bond election to finance a municipal pool for Sierra Madre. This was based on the favorable result of the association's mail survey of public opinion regarding a bond election for this purpose.

Hold Rites  
August 15 for  
J. D. Bailey

Funeral services were held Saturday, August 15, in the Church of the Reformation, Forest Lawn Memorial Park, for John Dutton Bailey, Sierra Madre resident for 30 years. Mr. Bailey passed on Aug. 13 in his home, 61 Windsor Lane, after a lengthy illness.

Born June 6, 1886, in Ness county, Kansas, Mr. Bailey spent his boyhood in that state. Later, with his wife and two children he homesteaded in Prowers county, eastern Colorado. Seven years later he brought his family to California and had lived in Sierra Madre since the early 1920's.

Gardening was his vocation and avocation and because of his love of flowers and shrubbery he had expressed his wish to be interred at Forest Lawn. Until he became ill he was employed as gardener by Lucky Baldwin's granddaughter.

Surviving are: His wife, Rachel M., a son and daughter-in-law, Eber T. and Nina Bailey of Sierra Madre, a daughter and son-in-law, Mrs. Richard C. Warren (nee Vivian Alice Bailey) and Mr. Warren, and a grandson, Delbe R. Warren.

Watch for "Back-to-School" Specials to be featured in next week's issue!

Judge John C. Mead, new association president, cited a 26 per cent return of 2400 post-cards mailed out to property owners. The cards returned represented a total of 1104 voters and 843 of them voted "yes." To date 91 more cards have been returned. "No" votes now total 417 against 959 "yes" votes.

## Discussion Lively

Objections to the pool were aired by several in the audience. Some also voiced qualified approval. The balance favored pool and election. Philip Mitchell, City Recreation director, pointed up various angles favoring a municipal pool including the lifelong value of making children at home in water at an early age. Health, recreational and relaxation factors for adults and children were stressed.

A main objection to a municipal pool, from the viewpoint of the taxpayer, was expressed by Mrs. Hue Boyett White, a past president of the Woman's Club. Her "Letter to the Editor" expressing these same views, is printed elsewhere in the paper.

## Urges Lower Cost

Mrs. Arthur C. Bohart strongly favored a pool at a cost lower than the estimated \$80,000 and recommended the use of volunteer labor as a money-saving possibility. Her views likewise are printed elsewhere in the News.

At Masters of the Recreation Commission summarized the discussion and moved that the association take the matter to the City Council.

Free Movies Today  
At City School

Today is the day of the free movie show for all Sierra Madre school-age children. Sponsored by the Sierra Madre Parent-Teacher Ass'n the showing of the feature film and selected cartoons will begin at 2:30 p.m. in the Elementary School Auditorium.

Mrs. Florence Nielsen, queen of the Foothill Community Fair for which many school children sold tickets, will welcome the youngsters. Invited to attend are boys and girls from the parochial schools, St. Rita's and Ascension, as well as the City School.

## .. What They Have to Say ..

(Other Views Page 2)

Asked to gather facts regarding a municipal swimming pool for Sierra Madre, Philip Mitchell, City Recreation director, has come up with some information which has been wanting. Chief among these is the indication that the Swimming Pool association is considering the special counsel of an outstanding Southern California swimming pool analyst and authority who is currently employed by many communities on a per diem or contract fee basis for ferreting out many details that assure continuing pool satisfaction to the community.

Here are Mitchell's findings:

**LOCATION**  
The best of our thinking and counsel points to the location of the pool in the City Park at the southwest corner. This vacant property is owned by the City, has been surveyed and sketched in the master plan for future park development.

The possibility for locating the pool on the newly acquired school acreage on Canon and Highland Avenues has been frowned upon by the school board of trustees due to the anticipated continued growth of the community and the very probable need of housing additional grades in the relatively near future.

The remaining two and a half acres of the Hall estate not purchased by the school has already been sold and its subdivision planned.

Al Freeland, City Water Department superintendent, and Paul Baumann of Sierra Madre, assistant engineer of Los Angeles County Flood Control, concur that it would be unsound for Sierra Madre to allow any encroachment on the city water department's spreading basins where some have thought a municipal pool might be located. Baumann points out that the capacity of the Santa Anita Dam to furnish water to the city at any given time has not been fully developed. At the present time City basins will catch only 60 per cent of the contracted flow from the dam.

Freeland stresses the need for remaining City ground to be developed for water needs. Hence, any intrusion upon the remaining grounds adjacent to the pumping plants would

prove eventually to be an ill-considered action.

**COSTS**  
Estimates from three leading pool builders all point to a common current cost of \$10 per square foot of plotted pool area. A pool of the size proposed for Sierra Madre (40 ft. by 120 ft.) calls for an area of 4800 square feet, a cost, then, of \$48,000 to \$50,000.

Added would be the cost of accepted, standard dressing rooms, and shower facilities which, at an estimated \$8 per square foot would approximate \$15,000. Office space for administration and storage space for materials and supplies would be included.

In addition to these basic costs would be other developmental projects such as a concrete block wall separating the pool on the west side from the immediate neighborhood and giving protection and privacy to the bathers. Other costs would be those for landscaping, fencing, and black-topping of an area for limited parking.

## PARKING

Parking is not the problem it would appear to be, Mitchell states. Statistics show that one out of five patrons of Los Angeles county swimming pools travel to the pool by automobile. Daily attendance might run as high as 750 bathers. Of this not more than one-third would be in the pool area at one time.

## P-TA COMMENT

The Sierra Madre Parent-Teacher association, according to the Recreation director, within the past 18 months went on record decisively as approving recreation in the heart of the

## JUDGE MEAD QUOTED

Commenting on the Swimming Pool association's decision at its last meeting to request the City Council for a swimming pool bond election, Judge C. Mead, president, stated to the News yesterday: "We can deliberate on this matter to no practical good. What is needed is a swimming pool in readiness for the coming summer."

"The entire matter can only be settled conclusively at an election which the council alone can provide for the community. "The association, assisted by the Recreation commission, has arrived at this conclusion after months of deliberation and feels this course is even more clearly indicated by the result of the recent postcard opinion survey."

It is toward this end, he says, that the three and two-thirds acres of ground now in the City park area is being carefully plotted and studied for development in the next 10 to 15 years.

And the swimming pool is an integral part of this development, Mitchell states.

Kiwanis Club  
Looks Ahead  
To Convention

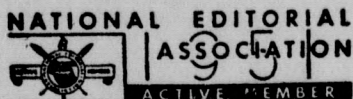

Dr. P. R. Woodworth presented the program at this week's meeting of the Kiwanis Club and a round table discussion was planned for the service club's luncheon meeting next Tuesday in the Woman's clubhouse.

Scheduled for Thursday, Aug. 27 is an inter-club meeting with the El Monte club in that city. Local Kiwanians also are drafting plans for attending the District convention Oct. 18-21 in Santa Monica.

## Sink or Swim?

The NEWS believes that a Municipal Swimming Pool would be an added asset to the city.

Like an average, growing American family, this growing American City "always needs something." As long as income is assured there's every likelihood that needs will be met.

We feel that a swimming pool would enhance the city's attractions to young people who contribute to a great extent to any city's vigor and prosperity. Added to the city's other advantages it would help draw active young families to Sierra Madre and help keep them and their children here.

It appeared in months past that enthusiasm for a swimming pool was being watered down by lack of a specific goal, lack of unified direction and lack of professional guidance. There has been no lack of sincerity.

It is acknowledged that there are many facets to a project of this kind and that legitimate objections, location-wise, money-wise, ad infinitum, should be heard... and answered. The NEWS columns are open for SIGNED views, pro and con.

As the swimming pool drive enters into a new phase, backed by a favorable straw vote, and as leaders prepare to ask the City Council for a financing bond election, it appears at long last that the endeavor is about to be resolved one way or another... and, we are confident, for the greatest good for all concerned.

Playing bridge stimulates marriage, according to Ely Culbertson. Presumably by increasing the supply of eligible widows and widowers.—Cedar Rapids Gazette.

## LETTER TO THE EDITOR

EDITOR, SIERRA MADRE NEWS

Whenever possible, such as digging a hole, pouring the cement for walks, putting up the fence and building bath houses, I endorse the use of donated labor. The actual building of the proposed municipal swimming pool itself should be done by professional men for the safety of our children.

Use county tax refund, regardless of amount to help pay off the bond issue, if elected.

Our immediate neighbors wish to share the pool and expressed their desire to do so in their wonderful support of the Community Fair. Let's petition them to see if they could help share the expense through pledges or door to door solicitation.

Issue tickets to Sierra Madre residents at a special rate. Issue other tickets to Hastings Ranch and Highland Oaks residents and let outsiders pay a maximum fee use of the pool if and when it becomes a reality.

If the bond issue is set at \$80,000, contractors will not watch costs as carefully as if a lower figure were set. Vote \$80,000 and they will use it.

I feel the bond issue should be set at an amount lower than the estimated cost. This would encourage holding costs at a minimum. The balance could be made up from ticket sales, projects, donations, etc.

MRS. ARTHUR C. BOHART

EDITOR, SIERRA MADRE NEWS

I am a taxpayer.

I would not know a hoof and mouth disease if I met it on the street. But I pay taxes for what I expect provides an experienced meat inspector.

I purchased a home without knowing a six-inch studding from a 10-inch brad, but I hired a reputable builder, and paid fees to qualified inspectors.

I have no intention of spending the few aged years left to me, in studying the fluoridization of water, the best binding for library books, how to resurface a street, erosion in our national parks, nor the latest construction in freeway clover leaves.

But I will continue to pay taxes for these, and a myriad of complicated projects, trusting that qualified experts, who spend a lifetime working and preparing in their special fields will be on the job.

It is the same way I feel about the proposed Sierra Madre Swimming Pool. I do not think it necessary for the 7700 people of Sierra Madre to become experts in pool construction.

I will support a bond issue. I expect that if a pool is constructed, a reputable firm and experienced engineers will be employed, without hindrance from well-meaning civic-minded souls, Sunday carpenters, and inexperienced volunteers.

I will accept the word of a qualified municipal pool engineer that he will construct the type of pool our community needs, use

good materials and workmanship, and adequate filter and plumbing.

I will expect a qualified person to be in charge of maintenance, who will keep in touch with others in the field, and keep the burden off my shoulders.

I will vote \$80,000 in bonds and trust that only the necessary number of bonds be sold to provide a decent pool and what goes with it. I expect to get what I pay for. If a pool is built cheaper, it will be a cheaper pool.

Some civic enterprises require public participation and deliberation beforehand but construction of a pool is governed by existing laws and regulations.

If a pool is built in Sierra Madre, I will be reading a gory Mickey Spillane while it is in construction. I would like to see a good pool built, and the best way, is to pay for it.

Sincerely,

MARTHA W. COUTANT

EDITOR, SIERRA MADRE NEWS

WHAT DO YOU THINK, MR. TAXPAYER? Very recently Sierra Madre was circulated regarding a proposed swimming pool. At an early date the voters will be asked to confer on the taxpayers the obligation of paying for bonds covering construction costs of this pool. Can we afford it?

As of June 30, 1953, the municipality's total outstanding bonded indebtedness was \$101,400. This includes \$16,400 in City Hall and City Park bonds and the balance in water bonds.

Our total taxes fall into the categories of City, School, General County, Flood Control and Sanitation; also State taxes.

Sewer trunk lines are now in, how soon may we be called on for reasons of health to install laterals and private connections? What of these costs and financing of sewer bonds?

Our community is blessed with the finest in fire fighting personnel. Isn't some of their equipment in need of replacement?

No relief from soaring living costs is forecast for the immediate future; for people whose income depends on day labor or small salaries, mounting local taxes added to already high Federal and State taxes presents a problem not so easily solved.

The City of Sierra Madre is a corporation in which every taxpayer is a stockholder, hence we are all interested in keeping our finances in a solvent condition.

Our school enrollment is growing rapidly with many new families coming here to live. We will certainly need added equipment when our new school buildings are completed. Think it out, friends, before increasing our bonded indebtedness.

Also, if the pool patronage provides sufficient revenue for its maintenance, the traffic problem involved will necessarily depreciate the adjacent property and place a nuisance burden on neighboring residents.

## We don't want to fool you

We say take another look at those bright 'n shiny used cars of ours. You may find a small scratch or two. Or a slightly worn tire. And we promise you'll find some mileage on the speedometers.

## We repeat...

These are used cars — GOOD used cars even though not so good as a brand-new '53 Ford. The only reason we have 'em so young and pretty is their owners couldn't be completely happy without a new Ford.

## Chances are, they can make you happy

very happy — particularly at the low prices we are asking.

But don't let these cars fool you. They may look it, but they are not brand-new cars. They are used cars — good used cars.

## HERE ARE SOME EXAMPLES:

- 1949 FORD 6 Tudor Sedan
- 1948 FORD 8 Tudor Sedan
- 1947 FORD 8 Fordor Sedan

## Stiff Lecture Sequel to Boys' Fun with Stop Sign

A group of six Sierra Madre juvenile boys were at the receiving end of a stiff police lecture recently as a result of some short-lived fun they had with a misplaced stop sign.

The boys were gathered in City Park early one evening when they heard a crash at Hermosa and Sierra Madre Blvd. They went to the aid of an Alhambra woman driver whose car had jumped the curb and knocked down a stop sign. The woman driver gave her name to an adult witness for reporting to the police, then drove away.

The un-attached stop sign proved too much of a temptation and several of the boys carried it across the boulevard to the north side of the street and set it up against a light standard facing east. This caused motorists traveling west on Sierra Madre Blvd. to stop, in some cases suddenly, all to the amusement of the juveniles.

Later, they traveled to the police station to report the broken stop sign and wary police officers detained them for questioning and a later lecture by the chief.

## Sheriff Lauds Sierra Madre Dimes March

Mrs. Berkshire  
1954 Chairman

Sierra Madre has been given credit for its share in the outstanding success of the 1953 March of Dimes campaign in January. In lauding Mrs. A. L. Stirtan, 390 W. Highland, local general chairman, Sheriff Biscailuz, Los Angeles County M.O.D. chairman, announced that the \$3,914.55 raised in this community was part of the \$1,579,101.05 total contributed.

**Credits Her Aids**  
Mrs. Stirtan passes along credit for the success of the local contribution to the Civic Club, sponsor of the drive here, and to those volunteers who assisted her. Chief among these, she pointed out, was Mrs. Noel McGarvin who headed up the Mothers March on Polio which accounted for a little less than half of the total local contribution.

March of Dimes chairman in Sierra Madre in January, 1954, will be Mrs. Douglas C. Berkshire, 450 Foothill Ave., elected by the Civic Club in June to be Public Affairs chairman, a post which automatically carries responsibility for the M.O.D. In past years Mrs. Berkshire has served in the local campaign as theater collection chairman. Assisting her as finance chairman will be Mrs. LeRoy C. Toms.

**Increase Over Last Year**  
Sheriff Biscailuz credited the 18 per cent increase in contributions last year to the public's growing awareness of the threat of infantile paralysis in the Los Angeles area and across the nation.

Because of the unusually heavy load of polio in Los Angeles county, funds from the national organization have been used to augment those of the local chapter in fighting the crippling, with the Los Angeles county chapter receiving close to a million dollars in advances for epidemic aid in each of the past five years.

## Hot Rod, Custom Cars Compete Sunday for Spots in National Show

Competition to determine the finest hot rods and custom cars for the sixth annual National Hot Rod and Motor Sports Show will be held Sunday morning, Aug. 23, at the National Guard Armory in Exposition Park, according to Managing Director Robert M. Barsky.

The best cars will be given space in the show, slated for Sept. 10-13. They'll be lined up alongside Detroit "dream cars," 250-mile-an-hour racers, cars with revolutionary design and other new, unusual cars.

The showing is opening to all interested owners and builders who wish to display their creations at the exposition, but will be closed to the public. Hot Rod Show trophies and \$1000 prizes in U. S. Savings Bonds will be awarded to the premier cars in eight classifications.

## 'La Boheme' Presented at Greek Theater

One of the most ambitious opera presentations ever undertaken in the Southern California area is the forthcoming Howard Dietz English version of "La Boheme" scheduled for six performances at the outdoor Greek Theatre in Griffith Park, beginning last night.

It will also mark the first time such an effort can be termed a strictly Los Angeles production. From its top artists to the ushers in the intimate amphitheatre, the personnel will be local residents.

Metropolitan opera stars Nadine Conner and Brian Sullivan, as "Mimi" and "Rodolpho" will enact the roles they originated in this translation at the Metropolitan Opera in New York last season. Both are native Angelenos, who received their early vocal training here.

New and elaborate stage settings, now in the process of construction, are by local designer Rita Glover.

## Scanning the Sports scene

With BOB BROGGER

You've probably heard of her. And if you've ever seen her perform, you probably were amazed. The lady we are talking about is none other than Mrs. John Culbertson, of 37 W. Grandview.

The skill that Mrs. Culbertson has is shooting a .45 pistol for the National Rifle and Pistol Championships. She is known around the nation as the woman holding seven of the 45 women's records. Also, she shot the highest 3-gun aggregate score for women.

The last time the National Rifle and Pistol Championships came to San Francisco, phenomenal Mrs. Culbertson took third! Quite a record for what the men call the weaker sex! However, Mrs. Culbertson will be unable to enter the Championships this year for they are going to be held in Camp Perry, Ohio, the world-famous home of the shooting tournaments for 33 years, starting in 1907. She said it would cost too much money to go way back there. So she's going to wait until they come out here again before she sets a couple more records. And she will, you wait and see!

Although it's a little late in the season, we would like to thank all the folks for opening the Canyon swimming pool this year. It was real thoughtful of you to think of the children in this way.

As the year has progressed, we have noticed some of the better swimmers in this area. The youngest and the most outstanding is 12-year-old Miss Patty Stetson, of 639 Woodland Dr., Sierra Madre.

Patty swims for the Los Angeles Athletic Club. The last meet was on July 19th at Balboa Park where she and two other girls placed first in the 120-meter race.

Patty is receiving most of her instruction from Audrey B. Smith, manager of the Canyon pool. Mrs. Smith gives her private lessons very day just before the pool opens.

If little Patty can keep up her outstanding swimming through the years, she's bound to become one of the nation's top swimmers for already, at the age of 12, she has been chosen as one of the 10 fastest swimmers in California! Guess what she wants to be when she grows up? No, not an underwater basket-weaver, but a professional swimmer. (How about the Olympics, first, Patty?)

For you people who are going to be working while the football games are going on this winter, you'll be able to see the highlights of the top Coast conference football games on film on Sundays over KHJ-TV, starting September 13th and running for 13 weeks. The program is going to be weekly.

Ed. Note: Watch for UCLA to play Michigan State in the Rose Bowl next year on New Year's Day.)

Despite the New York Yankees' winning ways, their rivals (the Detroit Tigers?) say the race isn't over yet. Of course, there is always the chance that the Yankees might get bored... With the retirement of Dom, baseball doesn't seem the same with the name Di Maggio missing from the major league rosters for the first time in 18 years. There's still the hot dog, but even some of those seem

"Blithe Spirit," the Stage Door Summer Stock company's success which has been held over twice at San Gabriel's Mission Playhouse, concludes this season's run on Sunday night, Aug. 23.

The Playhouse will be dark Monday in preparation for the next production, "The Play's

Response to the summer-stock season has been so favorable that Lane is mapping plans for making the theatre an annual event. Since it is the only stock company in the Los Angeles area, both metropolitan and suburban spectators have responded.

QUESTION: Is there any accurate way of deciding whether you should insure against a certain type of loss?

ANSWER: A good test is to ask yourself if you could afford the maximum possible loss from a certain risk. If that maximum loss could deal your finances a crippling blow, better insure. If the loss would only be a serious inconvenience, use your own judgment.

#### Junior Spacemen Fete Ronnie Ritterrath on His Sixth Birthday

Mr. and Mrs. Arthur Ritterrath, 300 Eaton Dr., Pasadena, recently entertained at a "Space Party" to honor their son, Ronnie, on his sixth birthday.

After following signs to the moon and hence to outer space, the guests were issued space helmets, rocket-ray guns, and projectiles. When time had been allowed for target practice with these weapons, roasting forks were distributed and the "space men" gathered around to broil "cosmic" franks over "venusian" fires.

Those participating in the fun were Janet Spicer, Greg Kennedy, Teddy LaPlant, Johnny Sage, Larry Kilgore, Mike Ward, and Penny Ward.

Mr. and Mrs. John Sage, Mrs. Esther Hess, and Mr. and Mrs. Clifford Ward also attended to make sure the young guests went through the "de-compression chamber" in fine shape and didn't wander too far out into "space."
